CAREER OBJECTIVE

Motivated and detail-oriented IT student seeking an opportunity to apply skills in AI/ML, deep learning, cloud technologies, and software development toward building intelligent and scalable digital solutions. Passionate about data-driven problem solving, AI-enabled software engineering, and continuous learning in emerging technologies, including machine learning, GenAI, and intelligent automation.

EDUCATION

Pursuing B.Tech in Information Technology Sem 7 from Vidyalankar Institute of Technology, Wadala
B.Tech Sem (1-6) aggregate CGPA = 9.576

Secondary and Higher Secondary Education:-

Standard	Board	Percentage	Class
10th	Maharashtra Board	91.40%	Distinction
12th	Maharashtra Board	82.67%	Distinction

TECHNICAL SKILLS

Language	Python, Java, C++, JavaScript
Frontend & Tools	React.js, HTML5, CSS3, Git, GitHub, Figma
Backend	Node.js, Flask, Express.js
Database	MongoDB, MySQL
AI/ML	Python, Machine Learning, OpenCV, Scikit-learn, TensorFlow, Computer Vision, Neural Networks, Pandas, NumPy

INTERNSHIP EXPERIENCE

AI/ML Intern — Uptoskills Jan 2026 – April 2026

- Built AI-driven safety and privacy features for a video conferencing platform, including a real-time speech moderation system and a live background segmentation feature.
- Developed real-time communication features including a chat system and automated transcript generation, alongside research on modern AI/LLM architectures.

PROJECTS

Deepfake Detection System (TE Level Project)

- Developed an AI-powered deepfake detection system for identifying fake images and videos.

GitHub: <https://github.com/vedikathalkar/Deepfake-content-detection>

NDVI Vegetation Change Detection System(SE Level Project)

- Developed an NDVI-based vegetation change detection system using satellite imagery and Google Earth Engine.

GitHub: <https://github.com/vedikathalkar/sat-change>

Face Detection-Based Attendance System(SE Level Project)

- Developed a face recognition-based attendance system for automated real-time attendance.

GitHub: <https://github.com/vedikathalkar/Face-recognition-based-attendance-system>

OPEN SOURCE CONTRIBUTIONS

Contributed to open-source projects as a participant in GirlScript Summer of Code (GSSOC) 2026 in the Open Source track and AI/ML track.

CERTIFICATIONS & COURSES

Microwave Satellite Data processing - IIT Bombay	2025
DBMS – Master the Fundamentals and Advanced Concepts-Scaler	2025
Cisco Packet Tracer - Cisco Networking Academy	2025

Languages

English - Professional Proficiency
Hindi - Full Professional Proficiency
Marathi - Native Proficiency
Japanese - Beginner Proficiency
